PROJECTS

CALENDAR

HTML, CSS, JS DOM

Successfully created a functional calendar using a combination of HTML for structure, CSS for styling, and JavaScript with the Document Object Model (DOM) for interactivity.

https://github.com/AditiVijayvargiya1711/calendar.git

CALCULATOR APP
Python

created a working calculator using Python and the tkinter framework. Tkinter is a powerful library for creating graphical user interfaces in Python.

https://github.com/AditiVijayvargiya1711/calculator.git

WEB-REPLICATION

created clone of some well known websites for learning purpose.
